

ANGOLA

Objective: contribute to food security, nutrition and sustainable agriculture, by making the Angolan agriculture innovation system more efficient and sustainable to meet the demands of farmers, entrepreneurs and consumers.

PLANALTO SEEDS

- OBJECTIVE:** Improve the availability and accessibility of high quality seeds to smallholder farmers
- INNOVATIVE ASPECTS**
 - Seeds of improved varieties and in large-scale (maize, beans and soybeans)
 - Creation and adaptation of grain storage technologies at low cost.
- CHALLENGES**
 - Unavailability of high quality seeds
 - Lack of business plan
 - Lack of funding
- CD ACTIONS**
 - Training in information sharing mechanisms
 - Leverage and sustain funding
 - Training and establishment of infrastructures for the processing and marketing of seeds.

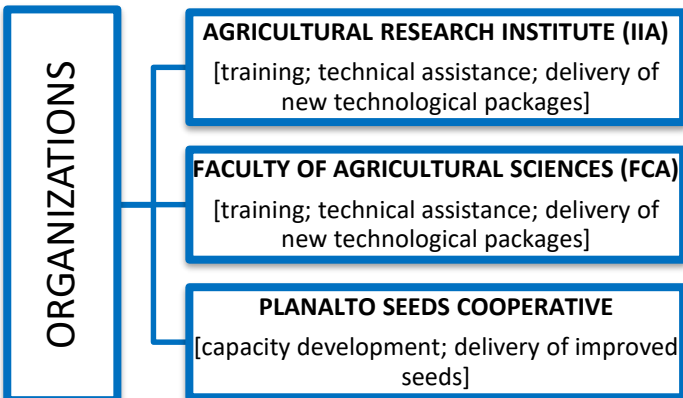

RICE DEVELOPMENT

- OBJECTIVES:** Identify and adapt improved rice varieties
Improve farmer's production techniques.
- INNOVATIVE ASPECTS**
 - Study and adaptation of varieties tolerant to cold and high altitudes
 - Production and multiplication of improved seeds
 - Technical package of rice cultivation
- CHALLENGES**
 - Geographic dispersion
 - Lack of funding
- CD ACTIONS**
 - Create incentives for coordination and promotion of meetings
 - Improve the mechanisms for sharing information and knowledge
 - Promote post-harvest, processing and conservation training.

RURAL ENTREPRENEURSHIP

- OBJECTIVE:** Provide business opportunities to new agricultural entrepreneurs
- INNOVATIVE ASPECTS**
 - New technologies for the production of legumes and grains
 - Use of seeds of improved varieties
 - Continuous training
- CHALLENGES**
 - Lack of a business plan
- CD ACTIONS**
 - Formalize the partnership
 - Develop a strategic plan to boost the partnership activities
 - Creation of mechanisms to attract funding.

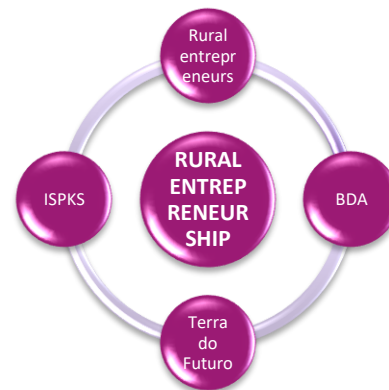

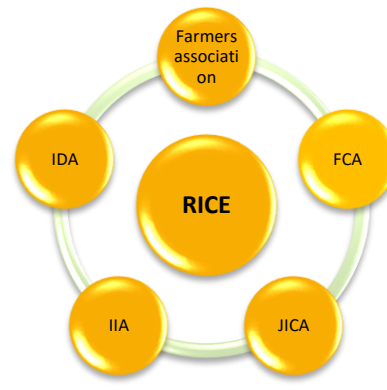

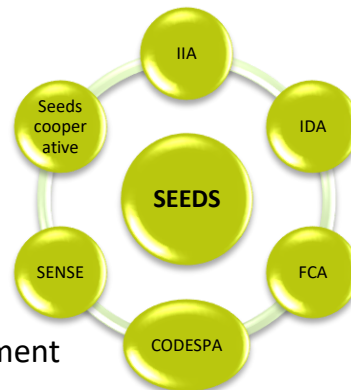

ACHIEVEMENTS

- 11 National innovation facilitators trained
- Capacity needs assessment of 4 partnerships
- CNA of 3 organizations
- First learning event within 3 partnerships (1st learning cycle)
- Field visits to 3 partnerships

NEXT STEPS

- 2nd learning cycle for capacity development (refinement & reflection event and field visits)
- Validation of organization's CNA
- Market Place: to broker partnerships to support the implementation of the coaching plans
- Policy roundtables for influencing and enhancing the enabling environment to foster and promote CD for AIS
- Establishing a national platform

Country Team
National Project Coordinator: Armando Manuel Valente
Country Project Manager: Maria de Fátima do Nascimento
Agrinatura Focal Person: Madalena Teles
FAO Focal Person: Afonso Zola
FAO HQ Rome: Abdoulaye Saley Moussa
